NOVEMBER 2010

WWW.KBBONLINE.COM \$10 U.S.
THE OFFICIAL SPONSOR OF

HydroRight by MJSI

With water conservation a serious concern now and going forward, HydroRight gets it just right by offering consumers an easy and affordable way to convert their old standard toilets into water-saving dual-flush systems. Judges liked the price—less than \$20 at big-box retailers—as well as its ease of installation, which takes less than 10 minutes and requires no tools, thanks to a patent-pending drop-in feature. HydroRight works in both old 3.5-gpf and newer 1.6-gpf toilets and was the only dual-flush converter to receive IAPMO Green UPC and Canadian UPC certification. **Circle No. 207**

PRESS UPPER BUTTON
to flush liquids & paper with less water

OR...

PRESS LOWER BUTTON
to flush with more power!
